

SUSTAINABLE DEVELOPMENT GOALS

The Sustainable Development Goals (SDGs) were drawn up by a United Nations working group, together with thousands of stakeholders, and adopted by a UN General Assembly Resolution during the United Nations Sustainable Development Summit in New York on September 25, 2015. A total of 193 UN member states committed to the 17 goals and 169 targets for global sustainable development and the related specific objectives.

The SDGs were put into effect as of January 1, 2016, and are designed to cover a period of 15 years (up to 2030). Particular emphasis was placed on the private sector's role in reaching these goals.
